# 1 Introduction

PUBG GLOBAL SERIES (“PGS” or “Competition” or “Tournament”) is a PUBG Esports Competition that is governed by the Standard and Universal PUBG Esports Ruleset (“SUPER”). The PUBG GLOBAL SERIES Tournament Rulebook is intended to establish and enforce operational guidelines. SUPER should be used in addition to the PGS ruleset but supersedes in case of the ruleset conflicts. The latest version of SUPER can be found on [pubgesports.com](http://pubgesports.com).

The PUBG GLOBAL SERIES Tournament Rulebook and SUPER shall be collectively referred to as the official Tournament rules (“Rules”). Tournament officials (“Referees,” “Head Referee,” or “Administration”) may amend the Rules and Tournament Format and make judgment calls on cases that are not specifically covered by the Rules to preserve the spirit of fair play and sportsmanship. The Administration and its officials always reserve the right to act with the necessary authority to preserve the best interests of the Competition, PUBG: Battlegrounds, KRAFTON Inc. (“KRAFTON”) and any of its partners or affiliates. This power is not constrained by the lack of any specific language in this document.

These Rules apply to all teams, team owners, team managers, team staff, coaches, and players (“Participants”) who participate in the Competition. Participants are responsible for abiding by these Rules in order to participate in the Competition. Participants who fail to abide by the Rules may be subject to penalties, fines, disqualifications, bans, forfeiture of prize money, or other sanctions per the sole discretion of the Administration. Tournament officials will make reasonable efforts to notify the Participants if any significant changes to these Rules are made. All decisions regarding the interpretation of these rules, player eligibility, scheduling, penalties for misconduct, and execution of the Competition lie solely with the Administration. Decisions made by the Administration are final unless otherwise clearly indicated and shall not give rise to any claim for monetary damages or any other legal or equitable remedy.

This rule may be translated into other languages for reference purposes. In the event of any conflict or discrepancy arising from the translation or interpretation of this rule, the English language version shall prevail and be considered the authoritative and binding version.

# 2 References

- Administration – Refers to the Tournament Officials, who have the ultimate authority over all matters related to the Competition.

- Head Referees – The Head Referee oversees all Referees. Referees will escalate issues to the Head Referee when unable to resolve them independently. Before, between, or after matches, Participants may request clarification from the Head Referee regarding any ruling. The Head Referee may escalate matters to the Administration if necessary.

If all alive teams, all but one (1) alive teams, or ten (10) or more alive players disconnect simultaneously, the match must be immediately terminated. A rematch that consists only of the players who were still alive at the exact time of the large-scale disconnection must be conducted. If any player is discovered to have been responsible for the cause of the large-scale disconnection, that player will be excluded from the rematch. The results of the rematch will be added to the results of the match in which the large-scale disconnection took place to determine the final results of the match.

## 12.11 Compensation Point, “CP”

Due to official computer or game issues, in the case of a mandatory game restart or automatic game restart, if a player is eliminated during the reconnection process, the team to which the player belongs may be awarded compensation points.

If a player is revived and then killed, CP will not be awarded. If the player reconnects to the match and is killed immediately after, a judgment call must be made by Administration. If the player did not have a chance to survive beyond reasonable doubt, CP will be awarded.

CP is applied to the end of day results and never to a specific match. CP should be added only to the total points and never to the kill points or placement points in any way.

To determine the number of CP that will be awarded:

1. Add the player's kills across all matches of the day excluding the player's lowest kill match of the day. If the player experienced more than one critical disconnection, exclude as many matches as the number of critical disconnections starting with the lowest kill match. Note that the excluded match may be different from the match in which the critical disconnection occurred.
2. Divide by the number of matches of the day that the player did not experience a critical disconnection.
3. If this number is less than 1, round up to 1. If this is greater than 1, round to the nearest whole number.
4. Multiply by the number of critical disconnections to determine that player's total CP for that match day.

At least one (1) and at most four (4) CP will be awarded for every critical disconnection.
